

“Environmental Innovation in the Offshore”

Biography: Ms. Marielle Thillet, Encana Corporation

Marielle Thillet is the Senior Environmental Coordinator at Deep Panuke, Encana Corporation’s natural gas field located offshore Nova Scotia.

In her role, she is an integral part of the Deep Panuke team charged with monitoring environmental performance both offshore and onshore at pipeline landfall in Guysborough County.

A Professional Engineer, she is a graduate of the Engineering School of Marseille, France and received a Master of Science in Marine Technology from Cranfield University, UK. She also holds certificates in Canadian Risk Management and Environmental Management from Dalhousie University.

An active volunteer, Marielle commits time to the Nature Trust of Nova Scotia and is an avid hiker, paddler and Ultimate Frisbee player. She has travelled across Canada, trekking in national parks in Newfoundland and Labrador, Quebec and the Yukon.

She lives in Dartmouth NS with her husband Vincent and their two young children.
