

## “Ocean, Forest & Field – the Bioenergy Playground”

---

### **Biography:** Ms. Nancy Rondeaux, Department of Energy

Nancy Rondeaux is currently the Manager of Electricity and Renewable Energy with the Nova Scotia Department of Energy. She joined the Department in 2006 and her responsibilities include leading the development of policies, regulations and programs that lead to GHG reductions in the electricity sector as well as the development of renewable energy projects. Her background includes times spent in the energy and natural resources sectors as well as work on environmental issues.

She earned her environmental engineering degree from the University of Guelph in 1997. Prior to her work with the Department, Mrs. Rondeaux worked for two energy companies, GDF Suez in France and Trigen Energy, a subsidiary of Suez in Canada.
