

Biography: Mr. Tony Wright, Fundy Ocean Research Center for Energy (FORCE)

Tony Wright is the General Manager of Fundy Ocean Research Center for Energy (FORCE) – Canada’s leading research centre for in-stream tidal energy. Situated in the Minas Passage on the Bay of Fundy, the high-energy tidal flows at FORCE make it a prime location for the commercial demonstration of tidal energy devices.

With a mission to accelerate the development of global tidal energy industry, Tony leads a highly dedicated team who provide project developers access to a shared operations facility, submarine cables, grid connection, and environmental monitoring at its pre-approved test site. Before assuming the role of General Manager, Tony served as FORCE’s Director of Marine Operations.

Prior to joining FORCE in May 2012, Tony had a 22-year career in the Royal Canadian Navy. As a naval engineering officer, he held a variety of leadership and technical roles onboard Canadian warships and ashore. Tony received his engineering degree from the Royal Military College of Canada and holds an MBA from Saint Mary’s University.
