

BP in Canada

Nova Scotia Offshore

What we do

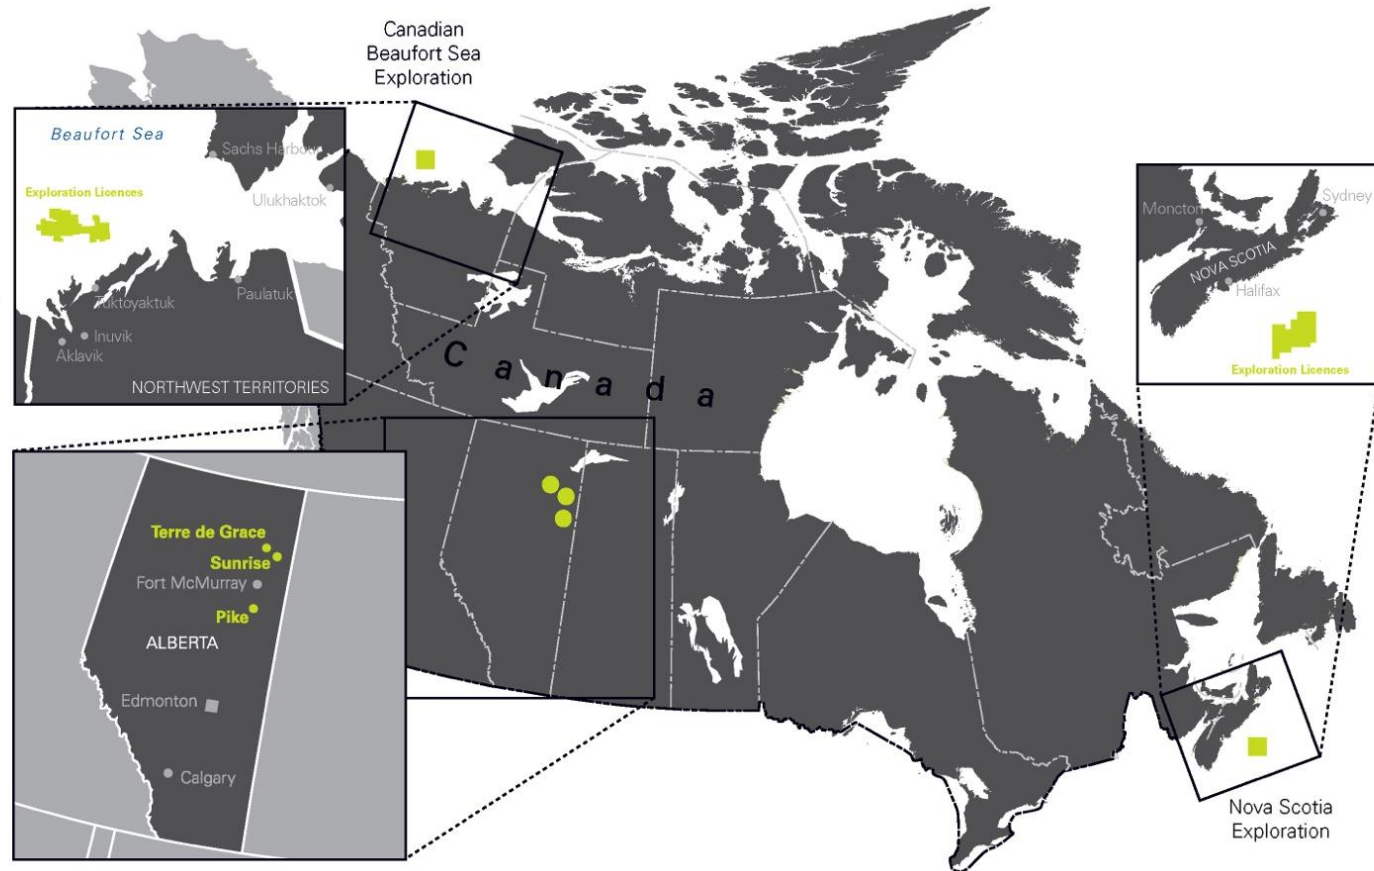

Helping to supply **safe and reliable energy** every day.

- Exploring offshore leases for oil and natural gas
- Develop the Canadian oil sands in a responsible manner
- Leading Canadian oil and natural gas marketer and trader
- Provide risk management services for commodities

Where we are

How we operate

Through our Operating Management System, BP in Canada is strongly committed to:

- Ensuring the safety of our people
- Engaging stakeholders in a meaningful way
- Managing the cumulative impacts of developments
- Enhancing environmental performance
- Investing in local communities

Our actions are guided by our values

Safety • Respect • Excellence • Courage • One Team

Offshore: Nova Scotia

- BP Exploration (Canada) Limited was the winning bidder on four offshore licences in 2012, located about 300 kilometres southeast of Halifax, N.S.
- Licences cover more than 14,000 square kilometres (>twice the size of PEI)
- Environmental Assessment to regulators was approved in early 2014 ahead of a planned seismic program.
- Tangier 3D Seismic program to run from May – October 2014.
